

Roller Guard[®]

**Simple
Effective
Safe**

Roller Guard is the non-aggressive anti climb system of choice for use where children or vulnerable people are present. This non-aggressive Roller Spinner system is the Anti Climb Barrier that offers practical and effective perimeter security - without the risk of intruders impaling or seriously injuring themselves on other climb products, like spiked products, barbed wire and razor wire.

Roller Guard Applications

- Flat Roof Buildings
- Schools & Children's Centres
- Shopping & Retail Premises
- Prisons & Young Offenders Institutions
- Rail Overpasses & Bridges
- Community Centres & Youth Clubs
- Hospitals & Mental Care Facilities
- Public Parks & Walled Gardens

A recycled product with UV treatment. The standard colour is black/grey, but we can match any colour in Pantone Range. Minimum order amount for colours.
